Fundamentals of Java
Programming

Frontend for Java Full Stack
Development

Data Structures & Backend
with Java

**BOARD
INFINITY**

Oct 24, 2024

QUACH HUU KHANG

has successfully completed the online, non-credit Specialization

Java FullStack Developer

In this specialization, learners are taught to build web applications using Java & Angular technologies. They have learnt the fundamentals of Java language, how to develop web applications using HTML, CSS, Angular, and how to setup backend using Spring & Springboot. They are well-equipped with the knowledge and skills needed to develop advanced applications in Java.
